Subject: Completeness Review Letter
Design Study Application: (DS 20-285)
San Antonio 3 SE 4th
Block: HH; Lot: 22 APN: 010-253-016

Thank you for submitting a Design Study for additions to an existing residence. Staff has reviewed your application, which was submitted on October 7, 2020, and has determined that staff cannot complete a comprehensive review of the application as, in Staff's opinion, the project as proposed is in direct conflict with the [Secretary of the Interior's Standards for Rehabilitation](#).

Staff's primary concerns are that the design conflicts with standard:

#2. The historic character of a property will be retained and preserved. The removal of distinctive materials or alteration of features, spaces, and spatial relationships that characterize the property will be avoided.

#9. New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

"A new addition should always be subordinate to the historic building; it should not compete in size, scale or design with the historic building. An addition that bears no relationship to the proportions and massing of the historic building – in other words, one that overpowers the historic form and changes the scale – will usually compromise the historic character as well." –[Preservation Brief 14](#)

"Constructing another floor on top of a small, one, two or three-story building is seldom appropriate for buildings of this size as it would measurably alter the building's proportions and profile, and negatively impact its historic character." –Preservation Brief 14

"To preserve a property's historic character, a new addition must be visually distinguishable from the historic building." –Preservation Brief 14

Staff recommends retaining a Architectural Historian to review the proposed plans and provide guidance for bringing the project into compliance with the Secretary of the Interior's Standards for

Rehabilitation. Should the Architectural Historian find the proposed project consistent with the Secretary of the Interior's Standards for Rehabilitation, the project plans and evaluation prepared by the independent Architectural Historian will be forwarded to the city's Historic Consultant for peer review.

Please contact me at (831) 620-2023, or ekort@ci.carmel.ca.us, if you have any questions regarding this letter or the process.

Sincerely,

A handwritten signature in black ink, appearing to read 'Evan Kort', with a long, sweeping horizontal line extending to the right.
